

Dear Colleagues,

The staff of the Department of Inorganic Chemistry of Ivan Franko National University of Lviv congratulates you on the 60th anniversary of the foundation of the Institute of Low Temperature and Structure Research of the Polish Academy of Sciences.

Your Institute is one of the leading scientific institutions in Poland and is recognized worldwide for its outstanding scientific achievements.

We are happy to note that our institutions have been united by close cooperation almost since the establishment of your Institute. This collaboration has contributed to improving the training of many young crystallographers and to the successful accomplishment of numerous joint scientific projects. Your kindness and hospitality have allowed our professional cooperation to grow into friendship. Your support has always meant a great deal to us, in particular during this dark time for our country.

We wish you continued fruitful work, new discoveries and many more scientific achievements.

Happy anniversary, dear Friends!

With best wishes from Lviv!
